PUBLIC LEDGER

LAST NIGHT'S SERMON

Pastor Wilhoite's Masterly Plea For All People to Act on the Level and Square Themselves with God.

At the Baptist revival last night Rev. Wilhoite delivered the following sermon on Masonry to a large and appreciative audience:

Behold how good and how pleasant it is for brethren to dwell together in unity. There may be many civil, religious and natural differences among Masons, but in the heart of true Masons there is a peculiar oneness in Love, Fellowship and Liberty. We are like the school-master's song books; a great variety of the same kind. Different colored backs, but the sameness in music.

Traveling on the Level.

The first part of my discourse is "Traveling on the Level." It is purely Democratic, for it means to be on a perfect equality; it means a sort of community of goods, or a true picture of the strong helping the weak. This is ideal; but how much grander is the thought, that we can travel on the level with "The Divine Master of The Trestle-board." We are "Co-workers with Him," Yokelfellow, Friends, Heirs and Brothers. Did not He pay each workman a penny? And did not we learn equity in His School of Life? It is our privilege, it is our opportunity; so let us, from our natural "Dead Level," permit Him to lift us to a "Living Perpendicular," so that we can fellowship with Him as we travel, upon the level of time, to that certain city, from whose habitation no traveler returns.

Acting on the Square.

The square is an angle of ninety degrees and was used by operative Masons to square their work; for nothing but Good, True and Square work was ever accepted. But we, as Spirit born Craftsmen, are taught to shape our lives by the square of Love, Virtue and Service, which He, our Divine Master, came to establish. How the world loves a square man. But since He is our only Standard, the inevitable question must arise; shall we be on the Square with God, that we might truly live on the Square with men? Therefore the interrogative, "In whom do you put your trust?" But it must be more than an intellectual answer.

Will You Be On the Square, or Deal Fair With God?

Since it is imperative for us to deal fair with God, in order to be able to be truly fair to our brother; I take it for granted that no true Mason will ask why it is necessary for him to become a loyal follower of Him who made all squareness possible. We should be fair and accept Him, because we need Him and He needs us; with necessity pushing and love pulling, surely we must find Him. He needs us to reflect Him to a lost world.

We ought to be fair with Him because of what He is—The bright and morning star—The Lily of the valley—

The chief corner stone—The key-stone—Jesus—Friend—Emmanuel—Son of God—Prince of Peace—Everlasting Savior—Mighty Counsellor—The God Man—and the Way, Truth and Life. Oh what a condescension, what grace. That we should be allowed to consider fairness to Him. But alas, poor men blinded by sin are still throwing this chief Corner stone into the rubbish; little do they dream that their bridge MUST have this Key-stone, lest it fall and drop them into hell. Yes be fair with Him, for a real Knight was He; one who never catered to the upper ten, but rather to the poor and needy. Never did he court a return compliment.

Again, we must be fair with Him because of what He has done for us. He loved us, died for us and redeemed us—what more can He do? What more need He do to merit your fairness. Ye are not your own for you are bought with the blood of Jesus; so to act on the square with Him, it is absolutely essential that you give Him what belongs to Him—namely yourself and your all.

What He has promised to do in the future will surely secure your decision, to be fair with Him—Gone to prepare a real castle for each of His faithful Knights, who really surrender to Him. Coming to receive us unto Him self and a definite promise, not only to "The Knights of Malta," but to all who are "Faithful unto death," that He will give them "A crown of life." "And now if ye will deal kindly and fairly with my Master, tell me, and it will tell me."

These meetings are growing in power and interest. Those interested in lost souls are asked to meet in the Sunday School room at 7 o'clock for a special prayer service.

ON TO MEXICO CITY

And Call For 250,000 Volunteers Is President's Plan If Crisis Comes

Situation Very Acute, But Villa Will Not Fight United States

CALL FOR VOLUNTEERS DRAFTED

WASHINGTON, April 23.—The War Department has completed a draft for a call for 250,000 volunteers. It will not be issued until necessary, but most officials believe the necessity soon will arise.

WASHINGTON, April 23.—

United States troops moved tonight to reinforce the American Navy at Vera Cruz; the embargo on arms into Mexico was formally restored and troops were ordered to the Mexican border primarily to relieve uneasiness among border residents but also as a precaution against hostile operations along the international line.

The restoration of the embargo on arms was announced after the pronouncement of General Carranza, the rebel chief, that he regarded the seizure of Vera Cruz as a violation of Mexican sovereignty had been considered by the administration. While Mexican Constitutionalists here protested that Carranza's real attitude was friendly the government decided to take no chances.

WILSON WARNS CARRANZA. President Wilson earlier in the day had issued a statement warning General Carranza, the rebel chief, that the United States was dealing now and would continue to deal with "those whom Huert commands and those who come to his support."

The United States has chosen Brazil to look after its interests in Mexico. Where there are no Brazilian consuls, French consuls will act for the United States.

During the day a special reserve fleet ranging from dreadnaughts to tiny gunboats was ordered to the Atlantic Coast of Mexico.

From Vera Cruz, the American land forces pushed their way three miles inland to some important breast works to make their position secure.

HUNDREDS OF REFUGEES LEAVE.

Rear Admiral Fletcher and American Consul Canada were occupied most of the day in handling hundreds of American refugees.

WASHINGTON, April 23.—Admiral Badger, tonight reported to the Navy Department that three more men had been killed and 25 wounded in the fighting at Vera Cruz, which continued about the city last night, and this morning three more American sailors were killed and about twenty-five wounded. The landing party now occupies all the city and outposts stationed in the sand hills in the rear which have been engaged in constructing defensive works.

LITTLE FOOD COMING TO CITY.

Very little food supply has been coming into the city and it is thought that in a few days the question of feeding the people of the city will become paramount and that it is possible the United States will be called upon to furnish food. The water supply is also causing anxiety.

VILLA WILL NOT FIGHT U. S.

JUAREZ, Mex., April 23.—Gen. Francisco Villa, head of the rebel forces, informed George C. Carothers, special agent of the State Department, that he will "decline to be dragged into a war with the United States by anybody." "Why," he smiled, as he threw his arms about the broad shoulders of the American representative, "all Europe would laugh at us if we went to war with you. They would say: 'Little Huerta has drawn them into a tangle at last.' Villa said he was not consulted in the drafting of the Carranza note, which was regarded as of hostile tone.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad. It is the Sign of the Times.

MAYBE it is an old fashioned idea this notion of putting all the value possible into the car itself—and as little as possible into overhead expense—

But it has given the Paige a positively dominant position among cars of medium price—

Ample capital for operating purposes—no bonded indebtedness—no excessive capitalization—no heavy overhead of any kind to be paid for.

Just a full dollar of car value for every dollar of the selling price.

Is it any wonder that the Paige is going to be oversold again this year in spite of increased production?
